The Danish Maritime Fund

- The Fund was established in 2005.
- The Fund's objective is to offer financial support to initiatives that can serve to develop the Danish maritime industry.
- The Fund's means are derived from dividends from the Fund's 10 % shareholding in Danish Ship Finance (Danmarks Skibskredit A/S).
- The Fund has since 2005 supported 752 projects in The Blue Denmark, hereof 607 non-profit projects and 145 commercial projects.
- The Fund's commitments to distributions amount to DKK 599 million to date (equivalent to around USD 94 million). Hereof DKK 434 million to non-profit projects and DKK 165 million to commercial projects in the form of loans on special conditions.

The Fund's distribution policy

The Fund's distributions must:

- Support the development of the Blue Denmark
- Be of benefit to Danish ship-owners, ship yards and manufacturers of maritime equipment
- Support innovative and future oriented activities
- Have a catalytical effect
- Create new jobs
- Have a business oriented content or be of non-profit nature.

The Fund supports in the following areas

1. Product and business development, hereunder industrial product development, development of innovative prototypes, business development, concept and system development . Support is given in the form of loans of up to 50 % of total project costs.
2. Research, hereunder applied research within technology, business development and analysis. The research must be inclusive and give rise to better co-operation, and research projects must form basis for non-profit knowledge sharing.
3. Education, hereunder development and further development of courses, further education of employees in the Blue Denmark, and recruitment campaigns.
4. Conferences and other arrangements, hereunder relevant maritime conferences, exhibits, events and meetings, arrangements that have a forward looking perspective, and arrangements that are accessible and open for participation.
5. Political initiatives, hereunder initiatives that support political objectives and advancement of the Blue Denmark internationally.

The Fund does not support

- Ordinary running costs, but only well-defined projects.
- Yachting activities or social purposes.
- The release of university researchers from their teaching obligations.
- Projects related to oil and gas production or other energy procurement such as wind power (maritime activities related hereto can be supported).

The Fund generally does not support

- Marketing related activities.
- Historical purposes or publication of books.

The Government's Growth Plan for the Blue Denmark

- The Maritime Strategy Team (Vækstteamet) presented in April 2017 its recommendations to the Danish Government on how to maintain the Danish stronghold as a maritime nation towards 2025.
- The Danish Maritime Fund announced on 15 June 2017 that the Fund will reserve DKK 25 million to support activities based on the recommendations from the Maritime Strategy Team and thus also the Government's Growth Plan for the Blue Denmark from January 2018.

The Fund's support to education and recruitment

- The Danish Maritime Fund has distributed DKK 206 million to education and recruitment purposes, or 36% of all distributions. Education and recruitment is thus the Fund's largest focus area. Totally 345 projects have been supported.
- The Danish Maritime Fund announced in December 2017 that the Fund will reserve DKK 25 million to 10 specific initiatives with focus on education and training in the Blue Denmark, over the coming two years (2018-2019).

Processing of applications

- Applications are processed at the Fund's four annual board meetings.
- Board meetings are typically held in March, June, September and December.
- Application deadline is typically about 6 weeks prior to each board meeting.
- Reply can be expected about 8 days after a board meeting.
- For the maritime MBA scholarship there is no deadline for applications, as these applications are processed continuously. Applications for these scholarships must, however, be sent to the Fund latest four weeks prior to commencement of the programme. It is not possible to apply for funding, if the study has been commenced.
